

## VOLUME IV.

### SUBJECT INDEX.

#### Address.

Annual — by the President, Charles B. Dudley, 17

#### Air-Brake Hose.

Specifications for —. M. H. Wickhorst, 421. Discussion, 432.

#### Alloys.

Alloy Steels. William Metcalf, 204. Discussion, 211.

Structure of —. William Campbell, 381. Discussion, 398.

#### American Society for Testing Materials.

Annual Report of the Executive Committee of the —, 616.

By-Laws of the —, 565.

Charter of the —, 563.

Contents of Previous Publications of the —, 625.

Deceased Members of the —, 609.

General Information Concerning the —, 571.

Geographical Distribution of Members of the —, 609.

List of Members of the —, 576.

Officers, Members of the Executive Committee, and Standing Committees of the —, 575.

Past Officers of the —, 610.

Report of Auditing Committee of the —, 620.

Rules Governing the Executive Committee of the —, 568.

Technical Committees of the —, 611.

#### Axles.

Comparison of Specifications for — and Forgings. H. V. Wille, 201

#### Boiling Tests.

See Tests.

#### Bridges.

See Structures.

#### By-Products.

— in the Portland Cement Industry. Clifford Richardson, 465.  
Discussion, 467.

#### Car Wheels.

Proposed Standard Specifications for Cast Iron —, 74. Discussion,  
80.

**Cast Iron** (see also **Castings** and **Pig Iron**).

—: Strength, Composition, Specifications. W. J. Keep, 335. Discussion, 369.

Proposed Standard Specifications for — Car Wheels, 74. Discussion, 80.

Proposed Standard Specifications for — Pipe and Special Castings, 57. Discussion, 67.

Standard Specifications for — and Finished Castings. Report of Committee B, 42.

Specifications for — and Finished Castings. Richard Moldenke, 54.

**Cast Steel.**

Permeability of —. H. E. Diller, 414. Discussion, 417.

**Castings** (see also **Cast Iron**).

Proposed Standard Specifications for Cast Iron Pipe and Special —, 57. Discussion, 67.

Proposed Standard Specifications for Gray Iron —, 97. Discussion, 101.

Proposed Standard Specifications for Malleable —, 95.

Specifications for Cast Iron and Finished —. Richard Moldenke, 54.

Standard Specifications for Cast Iron and Finished —. Report of Committee B, 42.

**Cement** (see also **Concrete**).

Attempts to Limit the Personal Equation in — Testing. A. W. Aiken, 557. Discussion, 560.

Boiling Test for —. F. H. Lewis, 468. Discussion, 473.

By-Products in the Portland — Industry. Clifford Richardson, 465. Discussion, 467.

Mechanical Defects of Sieves Used in Determining the Fineness of —. E. W. Lazell, 543. Discussion, 550.

Practical — Control. C. W. McKenna, 455. Discussion, 464.

Standard Specifications for —, 105. Discussion, 120.

Statistics of the — Industry in America. R. W. Lesley, 448.

**Chuck.**

— for Holding Short Test Pieces. T. D. Lynch, 400.

**Committee Reports.**

Auditing Committee, 620.

Committee A, on Standard Specifications for Iron and Steel, 34. Discussion, 37.

Committee B, on Standard Specifications for Cast Iron and Finished Castings, 42. Discussion, 45, 67, 69, 80, 101.

Committee C, on Standard Specifications for Cement, 105. Discussion, 120.

Committee E, on Preservative Coatings for Iron and Steel, 137. Discussion, 168.

Committee G, on the Magnetic Testing of Iron and Steel, 180.

Committee H, on Standard Tests for Road Material, 193.

Executive Committee, Annual Report of the, 616.

**Concrete.**

Tests of Reinforced — Beams. A. N. Talbot, 476. F. E. Turneaure, 498. Edgar Marburg, 508. Discussion, 525.

**Cylinders.**

Proposed Standard Specifications for Locomotive —, 69. Discussion, 71.

**Forgings.**

Comparison of Specifications for Axles and —. H. V. Wille, 201.

**Hose.**

See Air-Brake Hose.

**Impact Tests.**

See Tests.

**International Association for Testing Materials.**

By-Laws of the —, 633.

General Information Concerning the —, 569.

Officers of the —, 632.

Technical Problems, Committees and Referees of the —, 636.

**Iron (see also Cast Iron).**

Classification of — and Steel. Albert Sauveur, 239.

Magnetic Testing of — and Steel. Report of Committee G, 180.

Standard Specifications for — and Steel. Report of Committee A, 34. Discussion, 37.

Staybolt — and Machine for Making Vibratory Tests. H. V. Wille, 316.

**Locomotive Cylinders.**

See Cylinders.

**Magnetic Testing.**

See Testing.

**Malleable Castings.**

See Castings.

**Natural Cement.**

See Cement.

**Paint.**

See Preservative Coatings.

**Permeability.**

— of Cast Steel. H. E. Diller, 414. Discussion, 417.

**Pig Iron.**

— Feasts and Famines: Their Causes and How to Regulate Them. G. H. Hull, 376.

Chemical Specifications for —. B. F. Fackenthal, Jr., 50.

Proposed Standard Specifications for Foundry —, 44. Discussion, 45.

Standard Specifications for Foundry —, 103.

**Pipe.**

Proposed Standard Specifications for Cast Iron — and Special Castings, 57. Discussion, 67.

**Portland Cement.**

See Cement.

**Preservative Coatings.**

- for Iron and Steel. Report of Committee E, 137. Discussion, 168.
- for Iron and Steel. Cyril de Wyrall, 445.
- Causes of Durability of — for Structural Work. Robert Job, 439. Discussion, 442.

**President's Address.**

See Address.

**Proceedings.**

- of the Seventh Annual Meeting, 7.

**Rails.**

- Bending Moments in—. P. H. Dudley, 326.
- Specifications for Steel —, American Railway Engineering and Maintenance of Way Association, 195.

**Reinforced Concrete.**

See Concrete.

**Road Materials.**

- Standard Tests for —. Report of Committee H, 180

**Sieves.**

- Mechanical Defects of — Used in Determining the Fineness of Cement. E. W. Lazell, 543. Discussion, 550.

**Specifications.**

- for Air-Brake Hose. M. H. Wickhorst, 421.
- for Cast Iron and Finished Castings. Richard Moldenke, 54.
- for Iron and Steel Structures, American Railway Engineering and Maintenance of Way Association, 199.
- for Steel Rails, American Railway Engineering and Maintenance of Way Association, 195.
- Cast Iron: Strength, Composition, —. W. J. Keep, 335. Discussion, 369.
- Chemical — for Pig Iron. B. F. Fackenthal, Jr., 50.
- Comparison of — for Axles and Forgings. H. V. Wille, 201.
- Proposed Standard — for Cast Iron Car Wheels, 74. Discussion, 80.
- Proposed Standard — for Cast Iron Pipe and Special Castings, 57. Discussion, 67.
- Proposed Standard — for Foundry Pig Iron, 44. Discussion, 45.
- Proposed Standard — for Gray Iron Castings, 97. Discussion, 101.
- Proposed Standard — for Locomotive Cylinders, 69. Discussion, 71.
- Proposed Standard — for Malleable Castings, 95.
- Standard — for Cast Iron and Finished Castings. Report of Committee B, 42.
- Standard — for Cement. Report of Committee C, 105. Discussion, 120.
- Standard — for Foundry Pig Iron, 103.
- Standard — for Iron and Steel. Report of Committee A, 34. Discussion, 37.
- The Influence of — on Commercial Products. Annual Address by the President, Charles B. Dudley, 17.

**Standard Specifications.**

See Specifications.

**Statistics.**

Some — of the Cement Industry in America. R. W. Lesley, 448.

**Steel (see also Cast Steel).**

Alloy —. William Metcalf, 204. Discussion, 211.

Classification of Iron and —. Albert Sauveur, 239.

Commercial Testing of Sheet — for Electrical Purposes. C. E. Skinner, 404. Discussion, 417.

Early Use of 60,000-Pound Steel in the United States. S. T. Wagner, 228. Discussion, 237.

Magnetic Testing of Iron and —. Report of Committee G, 180.

Proposed Test for Detecting Brittleness in Structural —. J. P. Snow, 250. Discussion, 272.

Standard Specifications for Iron and —. Report of Committee A, 34. Discussion, 37.

Tensile Impact Tests of —. W. K. Hatt, 282.

Tests for Detecting Brittle —. W. R. Webster, 270. Discussion, 272.

**Structures.**

Specifications for Iron and Steel —, American Railway Engineering and Maintenance of Way Association, 199.

**Testing (see also Tests and Testing Machine).**

Attempts to Limit the Personal Equation in Cement —. A. W. Aiken, 557. Discussion, 560.

Commercial — of Sheet Steel for Electrical Purposes. C. E. Skinner, 404. Discussion, 417.

Desirability of a Uniform Commercial Speed for —. Paul Kreuzpointner, 332.

Magnetic — of Iron and Steel. Report of Committee G, 180.

Review of the Status of — in the United States. Gaetano Lanza, 215. Discussion, 225.

**Testing Machine.**

Staybolt Iron and — for Making Vibratory Tests. H. V. Wille, 316.

**Tests (see also Testing and Testing Machine).**

— for Detecting Brittle Steel. W. R. Webster, 270. Discussion, 272.

— of Reinforced Concrete Beams. A. N. Talbot, 476; F. E. Turneaure, 498; Edgar Marburg, 508. Discussion, 525.

Boiling — for Cement. F. H. Lewis, 468. Discussion, 473.

Chuck for Holding Short — Pieces. T. D. Lynch, 400.

Proposed — for Detecting Brittleness in Structural Steel. J. P. Snow, 250. Discussion, 272.

Standard — for Road Materials. Report of Committee H, 193.

Staybolt Iron and Machine for Making Vibratory —. H. V. Wille, 316.

Tensile Impact — of Steel. W. K. Hatt, 282.

**Timber.**

Effects of Preservative Treatments on the Strength of —. P. A.  
Kummer, 434.

**Wrought Iron.**

See **Iron.**

**Wood.**

See **Timber.**
